TRANSFERABILITY PLANS

# EMBRACIN PROJECT COMPLETED ITS FIRST YEAR

The 3-year EU project EMBRACIN completed its first year. During this year, the developed network of partners collaborated with each other and exchanged ideas on how to adapt Calo's 6+6\*6 model into EU countries context, with a long term goal for the scheme to be adapted in all EU countries.

Despite the restrictions due to the pandemic situation, partners kept communicating with each other online about the project's progress. They also managed to complete the study sessions online with stakeholders of their cities to inform about the idea of the project and involve them to help the integration of migrants in each city.

# Manistry brancheds branched places

STUDY SESSION 3 IN ITALY MUNICIPALITY OF PADOVA

STUDY SESSION 3 IN SPAIN FAMSI

STUDY SESSION 4 IN SWEDEN SALA MUNICIPALITY

### NEXT STEPS

STUDY SESSIONS IN SLOVENIA WILL BE COMPLETED

**PILOT ACTIONS 2021** 

DESIGN OF LEARNING ACTIVITIES

## ONLINE STUDY SESSIONS

All partner countries started their study sessions online where they communicated with stakeholders from each country to discuss the situation with migrants, the selection criteria for beneficiaries and experts and how the model can be adapted considering their needs.

After the sessions, partners prepared the Transferability plan which will help them prepare for the pilot actions that will start in January 2021.

A questionnaire prepared by partner **ECCAR** will be disseminated to other EU municipalities to discover other challenges faced when it comes to TCN's inclusion. The questionnaire help will partners gather information on how to design the activities learning to specify network interest and raise awareness.
